

Taiwan-KMUTT Internship Program (TKIP)

Embark on a transformative educational journey with the TKIP by elevating your learning experience through practical training in research labs or companies!

Why dive in?

TKIP opens doors for students to immerse themselves in diverse cultures while gaining practical insights in their fields. Don't miss out on this incredible opportunity to enhance your education and broaden your horizons!

Exchange of internship students between KMUTT and selected universities in Taiwan in research labs and KMUTT-affiliated companies

Foster cultural exchanges and cross-learning opportunities

Two Components of TKIP

Inbound Students from Taiwanese Universities:

Two-month internships (July-August) for undergraduate and Master's students.

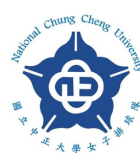

Outbound Students from KMUTT

- Two-month internships (June-July) for undergraduates.
- Six-month research theses (June-December) for Master's students.

Participating Taiwanese Universities

Companies (from 2017-2023)

- BAE Alloy Enterprise Co., Ltd.
- BDI Group
- Betagro Group
- Delta Electronics (Thailand) PCL
- Fomm Corporation Thailand
- Jinpao Precision Industry Co., Ltd.
- SCG Chemicals Co., Ltd.

Research Lab (from 2017-2023)

- Big Data Experience Center (BX)
- Chemical Engineering Practice School
- Department of Mechanical Engineering
- FREAK Lab
- Ingarage Assistive Technology Co., Ltd.
- Sensor Technology Laboratory
- SimDSscience, Department of Tool and Materials Engineering
